**PRIMARY EXAMINER**

***Allowable Subject Matter***

1. Claims 1-5, 7-10 and 21-35, renumbered as 1-24 are allowed over the prior art of record.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach and/or suggest "a property analyzer that determines an item distribution and forms a plurality of first-level clusters . . . automatically determines a respective item distribution . . . calculates a clusterization score for each other property based on the respective item distribution . . .", combined with "an organizer that automatically forms a plurality of new clusters . . .". In particular, applicant's teachings of clustering data items according to a first property, and then, based on a clusterization score associated with item distribution, selecting another property to be used to create a new set of clusters. The closest prior art of record (Roustant et al.) teaches cluster scores but fails to disclose all of the necessary elements of applicant's claim language.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US# 20020169764; US# 20050278321; US# 20030200198.
